

# Alumina Ceramic Block

Alumina ceramic block mats as wear resistant ceramic liners application in mining,cement ,power generation,steel industry.

## Product design

Chemshun **Alumina Ceramic Blocks** are designed as per the requirements of the customers' engineerings combined with the cost, installation and effective of application.

## Product features

Especially the blocks with tongues and grooves, Its obvious performance is that they could lock each other due to the tongues and grooves to increase the connectivity in whole engineering.

## Product application

So it is used widely in pipe lining, ceramic rubber plate in mining industry, steel plant, cement plant, port, power plant,etc.
